

Boy & Girl singing puppets

Print on heavy paper (card stock or trimmed down construction paper) and cut out, color if you like and laminate or cover with contact paper for durability. Hot glue to a large craft stick or tongue depressor. Store in a zip lock bag or file folder. Have a child hold both puppets. During the song the child holds up either the boy or the girl or both to determine who sings the song. Great to use when reviewing a song.
